2nd Edition 2025 · Regional Programme ERDF Lazio 2021-2027

TAKEOFF

Integrated Digital Transformation

SENSOR medica

Sensor Medica S.r.l. · Guidonia Montecelio (RM)
Project A0905-2025-100450 · CUP F88I26001660006

Sensor Medica S.r.l., a company that develops and manufactures medical devices under ISO 13485 – baropodometric platforms, 3D scanners, motion analysis systems – is carrying out an integrated digital transformation path to make its IT infrastructure and sales channels more robust, secure and efficient.

PROJECT ACTIVITIES

- **Digital assessment**
- **Digital workplace**
- **Digital commerce**
- **Cloud and data backup**
- **Cyber security**

OBJECTIVES

Move application servers, databases and web servers to the cloud; introduce structured data backup; strengthen cyber security; upgrade the digital workplace and e-commerce.

EXPECTED RESULTS

Greater business continuity, protection of company and clinical data, lower IT management and hardware maintenance costs, growth in digital sales.

GRANT AWARDED **€ 98,223.60**

Project co-financed by the European Union – Regional Programme ERDF Lazio 2021-2027
